2022

YEAR

Mokelumne River, Lodi

APPELLATION

2022 Grenache Rosé | Lodi

Dry, bright, and bursting with flavor, our new 2022 Grenache Rosé is the perfect wine to take you from pool days to cool nights, and everything in between. Sustainably-farmed on a single vineyard estate in the Mokelumne Valley in Lodi, this rosé is a true delight from one of the hidden gems of California wine country.

The Mokelumne River region is a viticultural paradise brimming with diverse microclimates and ancient vineyards. Well-draining, sandy-loam soils deposited by the Mokelumne River over centuries provide a fertile foundation for the vines. While best known for its old-vine Zinfandels, some dating back to the late-1800s, the region is also gaining recognition for its outstanding Rhône varietals, such as Grenache, which thrive in the region's moderate Mediterranean climate of warm days and cool nights.

What truly sets the Mokelumne River AVA apart is the passion and dedication of the local vineyard owners and winemakers who implement sustainable practices at every step of the process. Lodi's commitment to sustainable viticulture create a fantastic opportunity for wine lovers seeking authentic and unpretentious delicious wines. As they say, when the environment is happy, the grapes are happy, and you can taste the difference..
